J.D./M.B.A.

The School of Law and the Gabelli School of Business at Fordham University have established a combined program of studies in law and graduate level business administration. The program is designed to provide both full and part time students with an opportunity to study law and business administration in a course of study comprising the two fields.

The J.D./M.B.A. Program enables a full time student to complete the requirements for the J.D. degree in five semesters at the Law School, while enabling a part time student to complete his or her legal study in seven semesters. Hence, the program enables a full time student to complete the requirements for both degrees in as little as three and a half calendar years rather than the five it might take were each degree pursued separately. It enables a part time student to complete the requirements of both degrees in as little as six and a half years rather than the seven and a half it might take were each degree pursued separately.

Students must apply to and be admitted to each school on an independent basis. However, such admission need not occur simultaneously. Once a student has been admitted to either of the two schools, the candidate may apply to the other school, but, in order to get the full advantage of the program, a student must be admitted to the Law School first as the Law School cannot credit toward the J.D. degree courses taken at the Gabelli School of Business (GSB) before the student matriculated at the Law School.

A law student may apply to GSB at any time while in residence at the Law School. The student will attend GSB after finishing the Law School year in which he or she applies to GSB, complete the course of study there, and return to the Law School, if necessary, to complete his or her legal study.

The program contemplates sequential rather than simultaneous study at the two schools. However, a student in residence at the Law School may take one or more courses at GSB, as long as the total number of classroom hours per week does not exceed the number permitted by Law School regulations.

Due to accreditation requirements, the Law School can only award two credits for a course that meets two hours a week per trimester at GSB, whereas GSB gives three credits. The Law School will accept a maximum of 12 credits for courses taken at the GSB; the Gabelli Business School will allow a maximum of 12 credits for courses taken at the Law School toward the normal 69 credit M.B.A. and will waive the Business Law I core requirement. The joint degree will be awarded upon successful completion of the course requirements at both schools.
