Updating Your Travel Profile

Before you use SAP Concur's travel application for the first time, update your Travel profile. Even if you make no changes, you must save your profile before you can book a trip in Travel.

Notes:

• Some companies have custom fields on this page. Check with your agency or Travel administrator if you need information on custom profile fields.

• Depending on your company's configuration, some of these options may not be available to you. Check with your SAP Concur administrator.

• Depending on your company's configuration, this area in Profile may appear even if your company does not use SAP Concur Travel.

Use the Travel profile options to set or change your personal Travel preferences and settings. They include:

• Assistant or travel arranger
• Credit card
• Email options
• E-Receipts
• Language
• Password
• Personal preferences (name, address, emergency contact, credit card)
• Regional preferences (number format, date format, language)
• Register for SAP Concur for Mobile
• Travel preferences (air, hotel, car rental, rail preferences)
• Travel vacation reassignment and
• Other preferences and settings (default home page, calendar, emails, accessibility mode)

Travel Arranger

If you are a travel arranger and you want to change the profile of one of your users:

1. Click Profile.
2. In the Administer for another user field, type the first few letters of the user's name.
3. Select the appropriate user from the search results.
4. Click Apply.

Access

To access your profile information:

1. Click Profile > Profile Settings.
The **Profile Options** page appears.

2. Select the appropriate option under **Profile Options**, or from the links on the left side of the page.
Booking a Flight

From the SAP Concur home page, use the Flight tab to book a flight by itself or with car rental and/or hotel reservations. To book car and hotel reservations without a flight, use the Hotel and Car Search tabs, respectively.

**Note:** If your company is configured to use rail, then the Flight tab may show Air / Rail.

You can access the Flight tab (or Air / Rail) by doing the following:

- On the SAP Concur home page, on the menu, click Travel.
- On the SAP Concur home page, on the menu, click the SAP Concur logo.

The Flight tab (or Air / Rail tab) is on the left side of the page.

**Step 1: Start the Search**

1. Depending on your company's configuration, you might be able to select a rule class. If so, select the appropriate rule class.
2. Select one of the following types of flight options:
   - Round Trip
   - One Way
   - Multi City
3. In the Departure City and Arrival City fields, enter the cities for your travel. When you enter a city, airport name, or airport code, SAP Concur will automatically search for a match.
   **Note:** Use the Find an airport and Select multiple airports links as needed.
4. Click in the Departure and Return date fields, and then select the appropriate dates from the calendar. Use the remaining fields in this section to define the appropriate time range.
5. Click the arrow to the right of the time window to see a graphical display of nonstop flights available for the routing and date you have selected. This allows you to adjust your search criteria, if necessary, to see/reserve nonstop flights.
Notes:

- The graphical display is based on flight schedule data. It will not show any rail options, nor can it take refundability or class of service preferences into account.
- Each green bar represents 30 minutes of time. Place your mouse pointer over a green bar to see all of the flights available for that time slot.
- If you change locations or dates, click refresh graph for more data.

6. If you need a car, click the Pick-up / Drop-off car at airport check box.

   - Depending on your company’s configuration, you might be able to automatically reserve a car, allowing you to bypass viewing the car search results. When you select this option, additional fields appear. Select a vendor and car type; the car is automatically added to your reservation.
   - If you need an off-airport car or have other special requests, you can skip this step and add a car later from your itinerary.

7. If you need a hotel, click the Find a Hotel check box.

   - Choose to search near an Airport, Address, Company Location, or Reference Point / Zip Code, and then enter the appropriate information in the available fields.
   - If you are staying at more than one hotel during your trip or do not need a hotel for the entire length of your stay, you can skip this step and add a hotel later from your itinerary.

   **Note:** Before booking, canceling, or changing your hotel reservation, verify the hotel’s cancellation policy. Hotel cancellation policies have recently become much stricter. Fees will likely apply.

8. Depending on your company’s configuration, you might be able to specify an airline. If so, the Specify airline check box appears.

   **Note:** You can only search one vendor at a time, and this will override the preferred airline searches normally done for all of the frequent flyer number carriers.

   If you click the Specify airline check box, a list of carriers appears that are color coded:
   - The first (yellow) will be their frequent flyer carriers.
   - The second (gray/khaki) are the most requested airlines.
   - The remaining airlines are in alphabetical order.

9. Depending on your company’s configuration, you might be able to book for a companion. If so, select from the Number of adults list.

   **Note:** If a companion is selected, the payment screen provides the option to use the credit card from the companion’s profile.

10. Depending on your company’s configuration, you might be able to select the appropriate class of service.
11. For Search flights by, select either Price or Schedule. (Depending on your company’s configuration, you may not have these options or you may have an additional option: Multi-Fare.)

12. To search only for refundable flights, click the Refundable only air fares check box.
13. If necessary, uncheck the Flight w/ no double connections check box.
14. Click Search.

The flight search results appear.

Step 2: Select a flight

1. On the Flight Search results page:
   - If you selected Price on the previous page, then the Shop by Fares tab is initially active.
   - If you selected Schedule on the previous page, then the Depart tab is initially active.

   In the following example, Price was selected on the previous page.

2. On the Shop by Fares tab, to view additional details for the flights, click the Show all details dropdown arrow.

Travelers given the option to change a flight will be able to select a different date or time for the trip, but must stay on the same airline.

**Note:** Changing a flight can result in fare changes. If this option is available to you, please make sure to check with your travel agency on fare differences.

d. Click **Cancel all Air**, as needed.

4. Review the remaining sections, and make the appropriate changes.
5. Review the **Total Estimated Cost** section.

   Note that some companies do not offer travelers this option and always send plain-text email.

5. Depending on your company’s configuration, you might be able to choose whether you would like to receive directions or maps to the hotel.
   This information will be part of the initial email from SAP Concur.

6. Depending on your company’s configuration, your company might require billing information. If so, make sure to complete this information if requested.
   **Note:** Your company might offer its travelers the option to hold a trip. Travel will always display the length of time this trip can be held on this page. **Pay close attention to the date and time displayed; if the trip is not submitted, approved, and ticketed by the date and time displayed, in most cases it will be automatically cancelled.**

SAP Concur displays your itinerary on the **Trip Confirmation** page. This itinerary will include any messages about ticketing policies.

---

   OR
   On the menu, click Expense > Manage Expenses (on the sub-menu). Under Active Reports, click the Create New Report tile.

3. Click Next.

The expense report page appears. At this point you can add your out-of-pocket expenses and your company card transactions.

Note the following:

- The Expense link appears when the actual expense is incurred
- For hotel and car segments, the expense is incurred at check-out or when the car is returned, so the Expense link will not appear until the trip is completed (the last date of the trip).
- For an air expense, an Expense link might appear, depending on your company's configuration.

If the Expense configuration allows air to be expensed when it is paid for (generally well in advance of the actual trip), then the link appears once the air has been ticketed.

If the Expense configuration does not allow for pre-trip air reimbursement, then the link appears after the trip is completed (the last date of the trip).
