

MS IN BUSINESS ANALYTICS

30 CREDITS (2 terms)
Part-time option available

Businesses are awash in data—creating a growing need for professionals who can turn that information into profitable decisions. The **MS in Business Analytics** program at the Gabelli School of Business prepares students to apply leading-edge models, methods, and tools to data in ways that help companies to clearly see the road ahead. Electives in Artificial Intelligence and Deep Machine Learning help students carve out a competitive niche through this professional program.
