THE GABELLI MASTER OF SCIENCE

Midtown NYC
Tomorrow’s job market is calling for specialists. Our industry-focused MS programs turn passion into practice in as little as one year.

At the Gabelli School of Business, we teach to one test: the real world. Our curriculum refines students’ subject-specific knowledge and skills while expanding their career prospects in a competitive market.

**TOGETHER, WE PROSPER.**

→ Gabelli MS candidates come from every corner of the working world and a wide range of undergraduate majors. By learning from one another’s experiences, students add breadth and depth in their chosen business fields.

**NEEDS MET, COURSE CHARTED.**

What makes Gabelli different from other business schools? Studying in a global hub for commerce is only part of the equation. We help you to make the most of the business resources all around you—from academic and career support to class projects with top firms and corporate site visits. You will leave Fordham knowing where in the business world you fit.
FOR THOSE WHO SPECIALIZE IN GETTING AHEAD.

Graduates of Gabelli MS programs go on to excel at great companies: American Express, Disney, EY, Facebook, Google, J.P. Morgan, Major League Baseball, Nasdaq, Microsoft, and Time Inc., to name just a few.

MAKING A WORLD OF DIFFERENCE.

Gabelli graduates earn something more than a degree or a job offer. They leave the university with the ability to lead ethically. From their Jesuit business education, Gabelli students learn that profit need not come at the expense of progress. Since the launch of our first master’s programs in 1969, we have been committed to “business with purpose.” A Gabelli education leads to a career that has both meaning and impact.
FOR THOSE WHO SEE BROADER HORIZONS IN CONCENTRATED DISCIPLINES.

FORDHAM’S MASTER OF SCIENCE PROGRAMS ARE UNIQUE IN THEIR CONCENTRATION BUT COMMON IN THEIR MISSION: TO GRADUATE WORK-READY STUDENTS WHO THINK CRITICALLY, INSIGHTFULLY, AND – ABOVE ALL – UNCONVENTIONALLY.

MS IN ACCOUNTING
fordham.edu/MSA
The accounting field rates Gabelli’s MSA as one of the top programs in the nation. Fordham-educated accountants are indispensable in today’s corporate world.

MS IN BUSINESS ANALYTICS
fordham.edu/MSBA
Help businesses make decisions the right way—grounded in data. Learn the art and science of this high-opportunity field with courses in data mining, web analytics, machine learning, and more.

MS IN APPLIED STATISTICS AND DECISION-MAKING
fordham.edu/MSSD
Prepare for sought-after jobs in big data. This career-focused, process-oriented program is taught by experts in statistical theory and methods.

MS IN GLOBAL FINANCE
fordham.edu/MSGF
Compete for jobs in corporate finance, risk management, and investment management. Master global portfolio strategies and learn how to invest in established and emerging economies.
In this online program for experienced professionals, explore marketing and communications strategies that can build lasting relationships between people and brands.

Devise innovations for public health, private practice, and other settings through this degree offered by the Graduate School of Arts and Sciences.

Companies want to hire people who can not only design the systems that drive their operations, but also devise the next game-changing innovation. The MSIS helps you become one of these people.

Students of investor relations learn how finance, communications, risk management, and policy come together to shape the way business is conducted.

Are there big-picture challenges facing business and society that you want to solve? You can make a difference. Become a purpose-driven leader and learn to manage for change.

Understand how digital marketing approaches, consumer insights, market research, and other techniques can help firms connect with—and keep—their target customers.

New York City is the media capital of the world. Move up in the field with this degree, taught by working executives and by full-time professors whose research is used by the largest media companies.

A year-long, full-time program offered with the Graduate School of Social Service that equips candidates for management positions at pro-social organizations and nonprofits.

Covers highly technical skills such as stochastic modeling, derivatives instruments and valuation, fixed income and interest-rate modeling, and large-scale data management.

In this online program for experienced professionals, explore marketing and communications strategies that can build lasting relationships between people and brands.

Combine strong technical competencies in U.S. and global tax with superior problem-solving techniques and a clear-eyed view of moral and social responsibility.

NEW YORK IS MY CAMPUS. FORDHAM IS MY SCHOOL.

When you want to learn business, you learn business in New York. At The Gabelli School, you’ll master strategy, execution, and experience from some of New York’s top minds. This is a citywide classroom, led by professors and professionals alike. We’re talking roll-up-your-sleeves, hands-on learning that you can’t get from theoretical discussion alone.

Our main campus is just off Central Park in the heart of midtown Manhattan. We’re minutes away from everything and anything: Wall Street, Madison Avenue, Silicon Alley, museums, and culture. Close to major employers—a major plus when interviewing and interning—and major travel centers at Grand Central Terminal and Penn Station.
The Gabelli School is known for its highly personalized approach to admissions. Our philosophy is grounded in cura personalis, a Jesuit principle that takes a holistic view of each person and his or her potential. The admissions process allows you to showcase your academic strength and demonstrate the passion and character that can make you a Gabelli student.
